

MEDIA RELEASE  
JANUARY 2007

## Attention all home builders, renovators, designers and architects.

C&M HAVE PERMANENT DISPLAYS AT THE HOME IDEAS CENTRES IN MELBOURNE AND SYDNEY AND ARE CURRENTLY CONSTRUCTING A NEW DISPLAY IN ADELAIDE

C&M were quick to sign up at the Melbourne Home Ideas Centre in Oakleigh East and were again one of the first major companies to make their presence at the recently opened Sydney Home Ideas Centre in Alexandria and are currently designing a new display at the Adelaide Home Ideas Centre in Ashford.

C&M have an enviable reputation for having the widest range of Landscaping Products in Australia but many are unaware of the enormous and varied range of construction materials that C&M also manufacture. These include Render Bricks and Grey Blocks in dense and lightweight materials; Form Block®, a revolutionary mortarless masonry construction system; Architectural Bricks; an Architectural Masonry range that includes smooth, split, honed, pitched and shot-blast blocks in a wide palette of contemporary neutral colours and Macquarie Stone, a unique load bearing building block that replicates pitched sandstone, comes

complete with smooth bevelled corners and measures 470 x 248mm (or 6 standard bricks).

The Home Ideas Centres are perfect places to showcase C&M's innovative and stylish Architectural and Designer Masonry as any discerning builder, potential builder, renovator, designer or architect already knows. All C&M displays incorporate a large selection of Architectural and Designer Masonry, Form Block®, Paving, Retaining Walls and Eldorado Stone, realistic and lightweight stone veneers in a wide choice of styles and colours. These C&M displays can be found at -
